Professional Medical Career Training Programs

Training Tomorrow's Healthcare Professionals TODAY!

The U.S. Bureau of Labor Statistics states the health care industry will generate more than three million jobs by 2016. In fact, health care jobs make up 25% of workers in all industries combined!

Health care workers are most likely to remain in the same industry, even as individuals in other vocations are changing careers an average of seven times throughout the life of their employment.

DEGREE PROGRAM(S):

Diagnostic Medical Sonography – Associate Degree
Diagnostic Medical Sonography is the use of high frequency sound waves into areas of the patient's body that aid in diagnostic ailments. A Diagnostic Medical Sonographer is trained on the Ultrasound machine which administers diagnostic procedures.

DIPLOMA / CERTIFICATE PROGRAMS:

Medical Assistant - Certificate

Medical Assistants are involved in clinical as well as administrative tasks that help a doctor's office or other health care facility run smoothly.

Surgical Technology - Diploma

Surgical Technologists are operating room assistants and assist physicians in a variety of procedures as vital members of the surgical team. Emphasis is placed on information and techniques necessary for graduates to succeed in competitive environments.

Massage Therapy - Diploma

Massage Therapists perform touch therapy which treat a multitude of ailments. Massage Therapists work in hospitals, other health care environments, health spas, sports clinics or have their own massage therapy business.

For more information, contact Eastern International College or return this reply card.
