International
College**

BACHELOR OF SCIENCE IN NURSING COMPLETION (RN TO BSN)

PROGRAM OUTLINE:

The Bachelor of Science in Nursing (RN to BSN) Completion Program is designed for registered nurses who want to earn a Bachelor of Science in Nursing degree. The curriculum provides opportunities for a nurse to develop critical thinking skills, cultural communication competence, decision-making skills, evidence-based practice, leadership skills, and incorporate research in practice and patient advocacy. The curriculum contains 36 quarter credits of levels 300 and 400 General Education courses and 54 quarter credits of nursing courses.

Eastern International College is committed to the educational and professional enrichment of each student. The curriculum and environment provide an atmosphere in which students can develop, excel, and form a positive self- image. The college takes pride in enhancing basic science, clinical, leadership, management, and the technical skills in addition to preparing students for the workplace.
