Eastern International College

ASSOCIATE OF APPLIED SCIENCE IN NURSING (ADN)

PROGRAM OUTLINE:

The Nursing Associate Degree program prepares students to work as entry-level nurses in doctor's offices, acute care and rehabilitation settings, long term care facilities, ambulatory and community centers, medical centers and hospitals, among others. The applied science portion of the program has two major components: the theory / didactic / lab component and clinical externship component. The general education portion of the program includes coursework in Anatomy and Physiology, English, Math, Developmental Psychology, Microbiology, and Nutrition. Emphasis is centered on enhancing students' academic and interpersonal skills.

Our ADN program is programmatically accredited by the Accreditation Commission for Education in Nursing (ACEN) and approved by the New Jersey Board of Nursing. Graduates are eligible to apply for state licensure and sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN). The program has a total of 70 semester credits, with 24 credits in general education and 46 credits in program major course work.

COLLEGE PHILOSOPHY:

Eastern International College is committed to the educational and professional enrichment of each student. The curriculum and environment provide an atmosphere in which students can develop, excel, and form a positive self-image. The college takes pride in enhancing basic science, clinical, leadership, management, and technical skills in addition to preparing students for the workplace.
